

docSTAR EP w/RAID & Workgroup Pro Turnkey Solution System

The EP w/RAID and Workgroup Pro Turnkey Solutions includes Two Tier Storage (RAID + DVD-RAM) for convenient network operation and high data security. They are recommended for systems with between 2 and 10 concurrent users. They are available with Windows 2003 Server, which is required for the following docSTAR modules: Webview, Integration Agent, and NetConnect.

EP w/RAID includes basic document scanning and retrieval functions whereas Workgroup Pro adds Access Management, Audit Trail, Advanced Templates with OCR, Annotations, E-Mail/FAX/Attaché and Native File Management modules.
