

docSTAR SP & Departmental Turnkey Solution System

The **SP and Departmental Turnkey Solutions** provide superior database performance for demanding applications. They are recommended for systems with between 5 and 15 simultaneous users or which are considered "mission critical" in their environment.

SP includes basic document scanning and retrieval functions whereas Departmental adds Access Management, Audit Trail, Advanced Templates with OCR, Annotations, E-Mail/FAX/Attaché and Native File Management modules.

Description	Specification
Max Users	15
Max Additional ScanStations	3
Recommended Maximum Scan/Import Volume	200,000 pages per month
Database	MS SQL Server (CALs are not included)
CPU	3.0 GHz Pentium™ 4
RAM	1GB DDR2
OS	Windows 2003 Server
Network Interface	1 Gigabit Ethernet
Recommended Maximum Scanner Speed	100 ppm
Two Tier Storage	160 GB (140 GB available for documents)
Chassis	Medium Tower (Black), standard; options: rack mount
