docSTAR™ WebWorks

Document web access evolved.

Empower your organization at the speed of the web.

WebWorks allows your team to do more than ever before - remotely. Think web applications are limiting? Think again! With WebWorks, you can scan, import, edit, view, approve, file, download, print and email critical documents anywhere, anytime - making you more agile and profitable. Expand your horizons with WebWorks.

- ★ **Extend teamwork through online collaboration.**
- ★ **Built-in security for your document repository.**
- ★ **Remove bottlenecks securing document approvals.**

- ★ **Capture critical documents and data immediately.**
- ★ **Intuitive, elegant design for easy adoption.**
- ★ **Quickly download, print and email supporting documents.**

Engaging Document Management

★ Transcend office boundaries with virtual workspaces.

★ Full feature set including: scan, import, edit view, download, print and email.

★ Your team will be better able to leverage your document management investment.

Safe & Secure

★ Centralized user and security administration.

★ Secure Socket Layer (SSL) communication for trusted connections.

★ Audit Trail support for document operations.

★ Exclusive Authentidate technology to verify document integrity.

At home anywhere. WebWorks provides a virtual workspace for easy, secure document management via the web.

Your Organization Working Whenever, Wherever

☑ **Remote workers engaged.**

☑ **Office workers engaged.**

☑ **Field document uploads.**

☑ **Mobile manager approvals.**

☑ **Instant document collaboration.**

☑ *No more excuses!*

Evolve your organization with WebWorks today!

No document left behind. With built-in scan and import features, all documents can be captured anytime, anywhere.

Approvals on the go. Handle document approvals the instant they arrive in your inbox.

docSTAR™
document management. **Easy. Fast. Smart.**
