Fast Electronic Case Filing

With docSTAR, case files can be filed electronically with federal and some state court systems.

- ★ Easy electronic filing with docSTAR Send to File.
- ★ Print, email or upload with PDF creator.
- ★ Guarantee file integrity with docSTAR authentication which time and date stamps every image.
- ★ Secure documents automatically.
- ★ Monitor document access and retrieval with **Audit Trail**.
- ★ Email large files via integration with YouSendIt.

Easy Document Retrieval

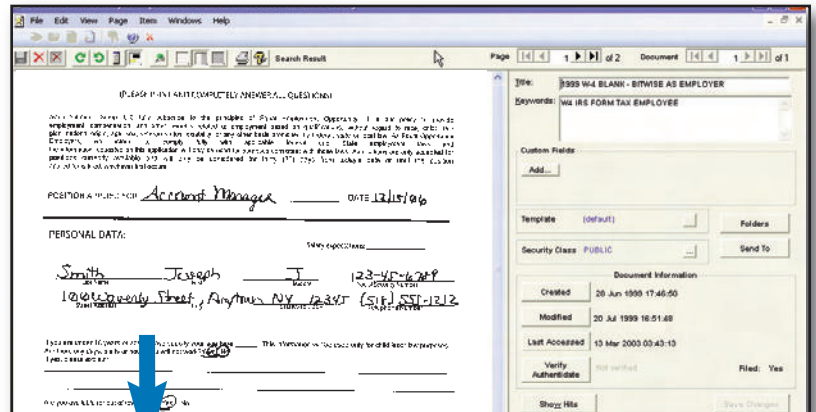

- ★ Respond quickly and accurately to requests from courts or clients.
- ★ Email documents, including entire case files, while still on the phone.
- ★ Never lose or misplace documents again - even odd sized documents such as notes.
- ★ Files are in a time-stamped order facilitating ease-of-viewing timeline associated with a particular case.

Smart Business Operations

- ★ OCR (Optical Character Recognition) allows for automatic indexing of full text for easy retrieval. Never manually waste time reading a deposition transcript again.
- ★ Easily store case files as well as office documents: resumes, payroll data, insurance forms or employee records in docSTAR ensuring the safety and security of any file in the event of a disaster.
- ★ Authorized users can access information from any location instantly... whether at their headquarters or regional office - resulting in no more file sharing or shipping of files.
- ★ Reduce time performing routine functions; such as changing name and address data and filing and retrieving employee records.
- ★ Reduce storage costs and virtually eliminate document loss by providing a central repository for all records.
- ★ Compatible with many native documents including: Microsoft Word, Excel, Word Perfect and PDF.

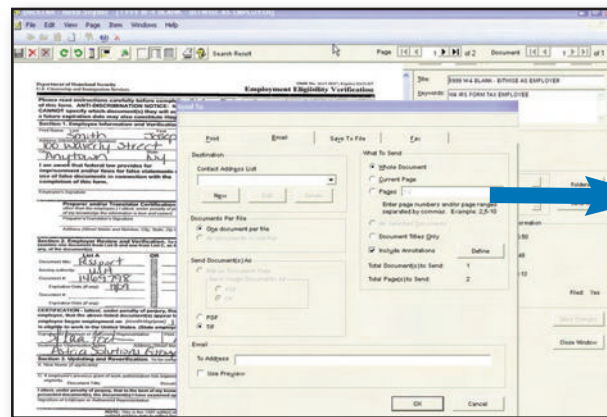

docSTAR Integrates with leading case management software applications such as: *Needles*, *ProLaw*, *TimeMatters*, *PerfectLaw* and *PracticeMaster*.

Simplify Filing with docSTAR

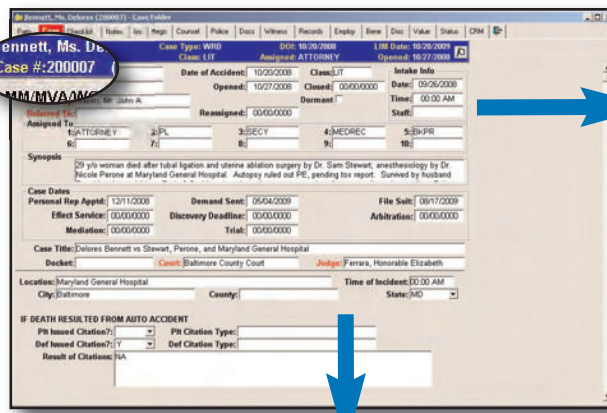

docSTAR converts paper documents into digital files and saves them into the **safe and secure** docSTAR system. Use your existing scanner to scan directly into docSTAR.

Improve Response Time

Retrieve & Send
docSTAR allows only authorized users to quickly retrieve secure documents from any location and send to attorneys or other appropriate parties via email or send larger files with YouSendIt.

Enhance Case Management Software

Automatic filing through integration with leading case management software applications.

docSTAR provides the electronic document storage and retrieval that case management software cannot.
