

document imaging.
Easy. Fast. Smart.

docSTAR™ E-mail/Fax/Attaché.

Three ways to keep the customer satisfied.

What we have here is the ability to communicate better.

E-Mail/Fax/Attaché from docSTAR is a suite of innovative products that helps you effectively and promptly manage your communications with everyone from customers and vendors to other members of your organization. Now you can e-mail and fax electronic documents instantly directly from your desktop and, with Attaché, you can quickly write a large number of documents onto CD or DVD for convenient distribution with a free viewer to anyone.

Better. Faster. Smarter.

docSTAR E-Mail/Fax/Attaché:

- ★ Eliminates the inefficient, costly, time-consuming chore of manually copying, faxing, mailing and e-mailing business documents.
- ★ Improves your competitive advantage and helps you retain customers by providing faster, more responsive service.
- ★ Saves you money and streamlines your business processes.
- ★ Lets you communicate with customers and suppliers via channels they already utilize in their information infrastructure.

The case for Attaché.

With docSTAR Attaché, you can publish a large number of documents (up to 15,000 pages) onto compact disc for distribution to anyone. If you need to disseminate much larger numbers of documents —100,000 pages, say — Attaché also lets you write them onto a DVD for convenient distribution. All disks include a self-contained web browser-based program to retrieve and view documents without buying any additional software.

Specifications

Email: Compatible with Outlook Express, Lotus Notes, Outlook and other MAPI email clients, SMTP.

Fax: Provided by Symantec WinFax Pro. Includes inbound and outbound report logging.

Attaché: Publishes image documents and COLD documents as images, PDF and native documents in their native format. Free viewer including TIFF plug-in for Internet Explorer provided on each published disk. Free Viewer requires Internet Explorer version 5.0.
