

## docSTAR Entry Level Server Class Hardware System

The docSTAR Entry Level Server Class Hardware System is best suited for document scanning and retrieval functions with moderate volume document capture and management that also have a need for hosting integration or remote access docSTAR modules.

| Description                 | Specification   |
|-----------------------------|---|
| <b>Chassis</b>              | Mid-Tower (Silver/Black)                                  |
| <b>CPU</b>                  | Intel Quad Core Xeon E3430 2.40GHz                        |
| <b>RAM</b>                  | 4 GB DDR3 ECC 1333MHz                                     |
| <b>OS</b>                   | Microsoft Windows Server 2008 R2 Standard Edition 64-bit  |
| <b>Hard Disk Capacity</b>   | 320GB RAID1: 160GB available for Two Tier Storage         |
| <b>DVD-RAM Capacity</b>     | 4.7GB per side; approx. 200,000 pages per dual sided disk |
| <b>Maintenance Software</b> | DisKeeper Server 2010                                     |
| <b>UPS</b>                  | APC Battery Backup 1000G                                  |
