Compliance in every solution should be this easy

DocStar AP Automation helps ease the burden of regulatory compliance and retention requirements. The solution ensures that your organization is following the procedures you've established—securely and automatically.

- ▶ Ensure records retention compliance
- ▶ Monitor document access and activity with audit trails and version control
- ▶ Guarantee file integrity with DocStar authentication, which time and date stamps every image
- ▶ Ensure file safety and security in the event of a disaster with electronic document storage
- ▶ Gain greater business insight with full set of reporting tools

DocStar AP Automation captures and automatically processes your AP invoices from multiple inbound sources, including existing document scanners or multi-function copiers. Invoices are automatically routed for two-way and three-way matching workflows and approvals.

Improve vendor relations

Respond to vendor inquiries instantly rather than wasting time looking through file cabinets. Vendor relations will improve and staff will be able to focus on more important tasks. With fast, Google-like search capabilities, you can search on a number of criteria, without having the exact invoice information, and e-mail documents to vendors while they are still on the phone.

Powerful integrations make AP processing fast and simple

Getting the most out of your software is critical to your company's bottom line. DocStar AP Automation integrates with any ERP or accounting system to eliminate "stare & compare" and duplicate data entry, and makes it easy to retrieve data, review invoices, and push them along the AP workflow—automatically.

Regardless of the ERP, accounting or HRIS solution you use, integration with DocStar AP Automation provides your organization with an even better return your software investment.
